# About Us

Sebat has been with you with its expertise and production power since **2000**, which is the date of establishment. It manufactures **manual dispenser cartridge systems and built-in dispenser cartridge systems** under the brand name of **Fomy**. As a hand cleaning foam in the **foam soap** class, it offers its consumers a rich product range with classic, antibacterial, sensitive skin and natural varieties. At the same time, under the brand name of **Fomy**, it provides service with a variety of products in the field of alcohol-free hand disinfectant foam, hand and skin disinfectant with alcohol, shampoo, auto foam shampoo.

Since **2007**, it has offered dish cleaners, glass cleaners, surface cleaners and concentrated surface cleaners under the brand name of **Paky**. It continues its production as the pioneer of the sector with antibacterial hand and skin disinfectant with alcohol, car shampoo, dish cleaner, surface cleaner, glass cleaner, industrial dishwasher detergent and gloss for professional use.

In all public use areas such as facility management companies, state hospitals, private hospitals, hotels, banks, car wash services, shopping centers, restaurants, catering service companies, spa centers, gyms, offices, schools, fuel stations, entertainment centers, It is with you as your solution partner with cleaning and hygiene products produced with high technology.

Within the framework of the Quality Management System, we offer our products with biocidal product licensed from the Ministry of Health, TS **11885** standard, "Sebat Kimya production facility" GMP ISO **9001** quality certified, at the same time with dermatology tests approved by skopbio laboratories, QACS Ltd Quality assurance & control systems and TITCK (Turkish Medicines and Medical Devices Agency) to all our dealers and final consumers that make us who we are.

Our products, which we produce in our own facilities in Turkey, have buyers in both domestic and international markets. We deliver our products to domestic markets through wholesalers, facility management companies and dealers. In addition, we contribute to the national economy with our products exported to all over the world. More than **50%** of our current production is exported to various countries in the Middle East, Europe and Africa. Sebat Kimya has succeeded in being the first company that comes to mind when it comes to hygienic cartridge dispenser systems and professional cleaning products. We are proud of being the leader of the sector with our Fomy and Paky branded products.

Developments in the world have made it necessary to adapt to new marketing and purchasing methods, and to create an e-commerce and digital market infrastructure. Based on this necessity, Sebat Kimya, as a pioneer in the sector, has structured and launched the fomymarket.com sales site. Apart from these sites, it aimed to expand its sales network by opening stores in Turkey's leading e-commerce sites.

# FOMY Foam Soap

*Fomy for fast and practical cleaning*

## WHY FOMY ?

Thanks to its special formula, it provides an ideal cleaning with its high quality foam. Safe and healthy cleaning is ideal for intensive use. **It will be your choice when you encounter the lasting scents of the magical, soft, creamy foam offered by the magic pump of the Fomy, which you will feel in the top note, middle note and base note.** Fomy foam soap is completely different from liquid soaps. Special foam formula provides perfect hygiene.

With each use, only **0.7 g of Fomy liquid** combines with **20 times the air**, thanks to its special pump design, and turns into a silky foam. With this feature, it is much more economical and healthier than liquid soaps. Since it has a **pH value of 5.5** and does not contain alkali, it never irritates your skin.

**Since 2000, Fomy Cleaning Foam has been offering classic, sensitive skin, natural, antibacterial products to its users with the fomy slogan for fast and practical cleaning.**

Fomy cleaning foam has a biocidal product license from the Ministry of Health, **TS 11885** standard and "Sebat Kimya production facility" has **GMP ISO 9001** quality certificate. At the same time, **skopbio laboratories** and **QACS Ltd Quality assurance & control systems** dermatology tests are available. **Fomy Cleaning Foam is approved by TITCK (Turkish Medicines and Medical Devices Agency) and dermatologically tested.**

## WHY PAKY?

Thanks to its special formula, **Paky** has made a difference in the field of general cleaning products with its yellow and green dish cleaner, glass cleaner, multi-purpose surface cleaner and concentrated surface cleaner products for hand use and professional use. It will be your choice when you encounter permanent scents that you will feel in the **top note, middle note and bottom note.**

**Paky has been offering General Cleaning products to its users since 2007 with the slogan of paky for complete cleaning.** Paky general cleaning products have a **TSE** standard and "Sebat Kimya production facility" **GMP ISO 9001** quality certificate.

## WHY CARTRIDGE SYSTEM?

Open liquids filled from the drum come into contact with the air and carry bacteria and microbes to the units where they are transferred. Since the cleaning product used after this process contains bacteria and microbes, it does not provide a hygienic cleaning and causes diseases. **Fomy Cleaning Foam**, on the other hand, protects the product against viruses and bacteria as it is safely filled into special cartridges directly from the production, thus **100%** hygienic product is obtained. With this product, you can get foam soap that is fast and practical, protecting hygienic human health.

**Fomy Foam Soap** Cartridge Hygienic System provides safe, economical and healthy cleaning with its easy assembly, practical installation of the cartridge and controlled use. Ideal for Intensive Uses. Environmentally friendly, recyclable polyethylene is preferred in the production of cartridge bottles. For this reason, the disposable cartridge hygienic system does not cause environmental pollution after it is finished.

# FOMY PROFESSIONAL 1000 ml

*Fomy for fast and practical cleaning*

**Liquid soap pumps** give an average of **2 g** of liquid in one press. Users consume an average of four or five grams of liquid by pressing the pump two or three times

**The Fomy pump** creates a fine and ideal foam by mixing **0.7 g** of liquid with twenty times of air. Thus, the consumer washes his/her hand with approximately **0.7 g** and consumes very little liquid. **Fomy is five times more economical than ordinary liquid soaps and two times more economical than ordinary foam soaps.** However, for this, the usage instructions on the back cover of the dispenser should be applied.

## ORDINARY SOAPS AND FOMY FOAM SOAP COMPARISON TABLE

## Classic

### HAND CLEANING FOAM 1000 ml

Thanks to its special formula, it provides an ideal cleaning with its high quality foam. It provides a safe and healthy cleaning with its controlled usage feature. Ideal for intensive use. It provides permanence with **top note** with citrus eucalyptus rosemary scent, **middle note** with herbal, mint, floral scent, **base note** with woody scent. With these features, **Fomy classic hand cleaning foam** will be your indispensable.

It is compatible with skin with a **pH of 5.5**. Thanks to its creamy foam, it leaves a silky, soft and pleasant feeling on the skin. Paraben free. It has passed all tests in accordance with the cosmetic regulation. It is easy and practical to clean and remove the foam. Cartridge system does not breed bacteria. It is five times more economical than liquid soaps when used in accordance with the instructions for use "**with its special dispenser**".

Our products are produced in accordance with the cosmetic and biocidal regulations. Dermatological, microbiological, protective effectiveness (challenge) tests and product safety evaluations are carried out through accredited laboratories. All notifications are registered in Titck's UTS system.

## Antibacterial

### HAND CLEANING FOAM 1000 ml

Thanks to its special formula, it destroys **99.9%** of bacteria. It provides a safe and healthy cleaning with its controlled usage feature. Ideal for intensive use. It provides permanence with **top note** with its fresh, aldehydeic, green scent, **middle note** with the scent of rose, lily-of-the-valley, ylang-ylang, and the **base note** with its woody, coumarin (vanilla) scent. With these features, **Fomy antibacterial hand cleaning foam** will now be indispensable.

Since it has a **pH of 5.5** it is compatible with the skin and does not irritate the skin. Thanks to its creamy foam, it leaves a silky, soft and pleasant feeling on the skin. Sles, triclosan and paraben free. It is very effective against bacteria. It provides the highest level of protection for your hands. The cartridge system does not produce bacteria. It is five times more economical than liquid soaps when used in accordance with the instructions for use with its "**with special dispenser**".

Our products are produced in accordance with the cosmetic and biocidal regulations. Dermatological, microbiological, protective efficacy (challenge) tests and product safety evaluations are carried out through accredited laboratories.

## Sensitive Skin

### HAND FACE BODY CLEANING FOAM 1000 ml

With its special formula, it has been developed as a cream according to the needs of sensitive, dry and hard skin. It provides a safe and healthy cleaning with its controlled usage feature. Ideal for intensive use. It provides permanence with **tope note** with tropical fruits, green scent and **top note; middle note** with aquatic, white floral, balsamic scent and the **base note** with its caramel and oily white musk scent. The product, which contains especially soft and skin-friendly active ingredients, is ideal for daily use. It cleans the skin gently and deeply without drying it out. By restoring your skin's softness and smoothness, it reduces your skin's dryness, hardening and excessive shedding. With these features, Fomy sensitive skin hand, face and body cleansing foam will now be indispensable.

It is compatible with the skin as it has a **pH of 5.5**. Sles and paraben free. It is hypoallergenic and does not cause allergies. It has passed all tests in accordance with the cosmetic regulation. Thanks to its creamy foam, it leaves a silky, soft and pleasant feeling on the skin. Purifying the foam is as easy and practical as cleaning it. The cartridge system does not produce bacteria. It is five times more economical than liquid soaps when used in accordance with the instructions for use "**with its special dispenser**".

Our products are produced in accordance with the cosmetic and biocidal regulations. Dermatological, microbiological, protective efficacy (challenge) tests and product safety evaluations are carried out through accredited laboratories.

## Hand Dish Washing

### CLEANING FOAM 1000 ml

It provides a safe and healthy cleaning with its controlled usage feature. It provides permanence with **tope note** with a fresh, grapefruit-esque sweet scent, **middle note** with jasmine, floral, peach scent and the **base note** with sweet scent. With these features, Fomy hand dish cleaning foam will now be indispensable for you.

**Its wonderful foam** does not leave any stains on your dishes. The cartridge system does not produce bacteria. It is compatible with the skin with its special formula. It provides an ideal cleaning with its high quality foam. It is five times more economical than liquid detergents. When used **with its "special dispenser"**, approximately one thousand five hundred plates or glasses can be washed.

## Industry

### HAND CLEANING FOAM 1000 ml

It provides a safe and healthy cleaning with its controlled usage feature. Ideal for intensive use. It provides permanence with the effective scent of lemon in its **top note, middle note** and **base note**. With these features, **Fomy industrial hand cleaning foam** will be your indispensable.

It leaves a pleasant feeling with its **creamy foam**. Developed for industrial oil and dirt. It provides convenience in cleaning and rinsing. The cartridge system does not produce bacteria. It is more economical than liquid detergents. It is five times more economical than liquid soaps when used in accordance with the instructions for use "**with its special dispenser**".

It is suitable for the skin with a **pH of 5.5** and does not irritate the skin. Thanks to its creamy foam, it leaves a silky, soft and pleasant feeling on the skin. Does not contain sles, triclosan and paraben. It is very effective against bacteria. It provides the highest level of protection for your hands. It is easy to fill with its **"special narrowed mouth"**.

Our products are produced in accordance with the cosmetic and biocidal regulations. Dermatological, microbiological, protective efficacy (challenge) tests and product safety evaluations are carried out through accredited laboratories.

### Sensitive Skin

#### EL YÜZ VÜCUT TEMİZLİK KÖPÜÇÜ 1800 ml

With its special formula, it has been developed as a cream by taking into account the needs of sensitive, dry and hard skin. It provides a safe and healthy cleaning. Ideal for intensive use. It provides permanence with the top note with tropical fruits, green scent, the middle note with aqua, white floral, balsamic scent and the bottom note caramel and oily white musk scent. The product, which contains especially soft and skin-friendly active ingredients, is ideal for daily use. It cleans the skin gently and deeply without drying it out. By restoring the softness and smoothness of your skin, it prevents your skin from drying, hardening and excessive skin reduces spills. With these features, Fomy sensitive skin hand, face and body cleansing foam will now be indispensable.

It is suitable for the skin with a **pH of 5.5**. Does not contain sles and paraben. It is hypoallergenic and does not cause allergies. It has passed all tests in accordance with the cosmetic regulation. Thanks to its creamy foam, it leaves a silky, soft and pleasant feeling on the skin. Purifying the foam is as easy and practical as cleaning it. It is easy to fill with its **"special narrowed mouth"**.

Our products are produced in accordance with the cosmetic and biocidal regulations. Dermatological, microbiological, protective efficacy (challenge) tests and product safety evaluations are carried out through accredited laboratories.

### Natural

#### HAND FACE BODY CLEANING FOAM 1800 ml

It is produced using natural raw materials. It provides a safe and healthy cleaning. Ideal for intensive use. It contains soft and skin-friendly active ingredients with its special formula. It provides permanence with the **top note** with its herbal, fresh scent, the **middle note** with the scent of jasmine and ylang-ylang, and the **bottom note** with its sweet scent. With these features, **Fomy natural hand, face and body cleansing foam** will be indispensable.

It is suitable for the skin with a **pH of 5.5**. Thanks to its one unit creamy foam offered by its magic pump, it leaves a silky, soft and pleasant feeling on the skin. It does not contain sles, parabens and petrochemical derivatives. It has passed all tests in accordance with the cosmetic regulation. Cleaning the foam is as easy and practical as cleaning it. It is easy to fill with its **"special narrowed mouth"**.

Our products are produced in accordance with the cosmetic and biocidal regulations. Dermatological, microbiological, protective efficacy (challenge) tests and product safety evaluations are carried out through accredited laboratories.
